PLAN TO FINANCE NEW POTASH IDEA

Inventor's Discovery to Be Discussed by Men Who Want Production Here.

MAKES USE OF FELDSPAR

So great has the need become of find-g some method of supplying potash i this country in large quantities that in. Thomas H. Norton of the Bureau f Foreign and Domestic Commerce has of Foreign and Domestic Commerce has had an almost endless train of visitors who want information on the possibili-ties of building up a potash industry here. A chemist who has for several years devoted himself to efforts to solve the potash problem called on Dr. Noryesterday and told him of another method of producing potassium chloride from feldspar which Dr. Norton thinks

very promising. It has been brought to the attention men who are interested in potash. They will have a conference with Dr. Norton at the Bankers Club on Friday, when the question of financing the new invention will be discussed. Quantities of feldspar in Maine, which contain on an average 11 per cent. of potash, have been brought to the attention of Dr.

A new vegetable product which ap-A new vegetable product which apparently can be used as a red coloring matter arrived yesterday at the Bureau of Foreign and Domestic Commerce in this city. It is now being tested by Dr. Norton in the hope that he may find it available for textile fibres, as well as wool, paper and straw.

Dr. Norton had lunch yesterday with officers of the New York branch of over

efficers of the New York branch of one of the big dyestuff concerns of Ger-many, and discussed with them the soluion of the problem, so far as they were concerned, of securing supplies from foreign sources.

"There is apparently no doubt that the German manufacturers of artificial colors are in a position to ship immediately to their American representatives an ample supply of nearly all of the colors currently needed by American textile and allied industries as soon as existing embargoes are raised," said Dr.

When asked what would be the effect of the lifting of the British embargo on dyestuffs and other coal tar products, a report of which had reached this country, Dr. Norton said that he did not think it would bring benefit to any but those engaged in the importation of me-

dicinal drugs and chemicals.

It is an old story, he said, that Germany will not permit dyestuffs to come to this country until England permits an equal value of cotton to be shipped to

ENGLAND LIFTS BAN.

Modifies Rule Concerning German Goods Bought by Neutrals.

LONDON, Sept. 16 .- Great Britain will interfer with the shipment from many of goods contracted and paid for by neutrals prior to March 1. In reasserting this position of the British Government the Foreign Secretary, Sir Edward Grey, to-day said that inter-ference would injure neutrals only. Drugs and certain chemicals produced only in Germany for which neutrals have an imperative need also may be ed without British interference, the

Foreign Secretary said.
It was announced that the Govern ment will release the cargoes as quickly as American importers produce the re-quired proofs. No distinction will be between private representatives

and the American State Department's oreign trade advisers.

The chief reason for delay caused it was asserted, is the slowthe required proofs. The proofs be sent either to the Foreign or directly to the Procurator-of the Prize Court or the Ad-

the ground that the goods to America on passage to America will be reexported from the United States to this colonies to the detriment Payments made to Germany for the

goods," the editorial continue her to continue the war." "Would Germany alter her policy a hair's breadth for the benefit of neutrals?" it asks, and adds that "neu-trals have only Germany to thank for The article concludes :

"The sooner neutral nations are not allowed to influence the conduct of the war in any way the more likelihood there will be of its speedy termination."

Milchel Protests to Whitman on Pollution of City Water Supply

Pleads With Governor Not to Approve Plan to Build Sewage Disposal Plant for Mohansic State Hospital.

CALLS SCHEME A MENACE TO PUBLIC HEALTH

approval, to build for the Mohansic Biggs, I am convinced that this

State Hospital a sewage disposal plant from which the treated sewage would ultimately flow into Croton Lake.

If the State does this, says the Mayor, "one of two things must happen: Either the city must abandon the Croton watershed or the people of New York must drink unclean and possibly contaminated water." He asks the Croton watershed or the people of New York must drink unclean and possibly contaminated water." He asks the Governor for a public hearing. The

ietter in part foliows:

"As three-lifths of the water consumed by the people of New York city, and all the water supplied to the residents of the Borough of Manhattan, is drawn from Croon Lake this city must look with appreciation, whose with a constant of the supplies the the s look with apprenension upon any at-tempt to pollute the waters of its most important reservoir.

important reservoir.

"I am given to understand that when the Mohansic State Hospital is completed the inmate population and the necessary attendants will total at least 6,000. Even if it were possible to treat the hospital sevage in such a manner that all danger of disease might be eliminated, the people of New York city would violently resent the necessity of drinking water once polluted. After spending hundreds of millions of dollars upon the acquisition of a water dollars upon the acquisition of a water supply system the residents of this city are entitled to better treatment.

"The best expert opinion, however, is in agreement that no system of treatis in agreement that no system of treating sewage will absolutely assure the removal of all danger from disease breeding organisms. The most elaborate plans depend upon the vigilance of their caretakers for effective operation. A few minutes carelessness may render the entire process useless.

"The assessed valuation of the Croton water supply system outside of the city limits is more than \$225,000,000. The value of this great investment should not be impaired in any way. If, "The assessed "aluation of the Croton water supply system outside of the city limits is more than \$225,000,000, pital for the Insene to flow into the Should not be impaired in any way. If, on the other hand, the city permitted its citizens to drink polluted water the damage to the health and prosperity of the city would be beyond calculation. If the city would be beyond calculation. the city would be beyond calculation

"Correspondence has already passed on this subject between the State Commissioner of Health, Dr. Herman M. Biggs, and the Commissioner of Water Supply of the City of New York. The State Health Commissioner stated that the plans for sewage disposal at Mohansie were morely towards. sic were merely temporary and that the State contemplated a permanent system \$100,000.

Mayor Mitchel sent Gov. Whitman a letter yesterday protesting against the proposal, now before Mr. Whitman for "After careful consideration," said Dr.

moment it was in operation.

"A former State engineer of the State Health Department, Theodore Horton, discussed somewhat similar plans for sewage disposal at the Mohansic State Hospital, and stated that he saw 'no alternative but that of disapproving the present plans or any other plans involved. present plans or any other plans involv-ing similar or analogous methods of sewage disposal."

"The plan to contaminate New York city's water supply with sewage from Mohansic State Hospital has been condemned by a former State Commissioner of Health [Eugene H. Porter] as well as by the chief engineer of the State Health Department, and the present State Commissioner of Health has admitted in writing that the entire proposition is so dangerous that ultimately a safer method of disposal must be se-cured at an added expense.

"I am sure that a due regard for life and property will lead you to investigate with all thoroughness and care a matter which strikes so close to the well being of 5,000,000 of the citizens of the
